PATENT

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings of claims in the application:

**Listing of Claims:**

Claims 1-51 (canceled)

52. (Currently amended) An isolated nucleic acid molecule encoding an ScFv antibody (ScFv Ab) having a sequence set forth in SEQ ID No 1 or a fragment thereof, wherein the ScFv Ab or fragment thereof binds to human 5T4 antigen.

53. (Currently amended) The isolated nucleic acid molecule of claim 52 having a sequence set forth in ~~SEQ ID No. 1~~ SEQ ID No. 5.

54. (Currently amended) An isolated nucleic acid molecule having the nucleotide sequence set forth in SEQ ID No 5 or a fragment thereof, wherein the nucleotide sequence or fragment thereof encodes an ScFv antibody (ScFv Ab) or fragment thereof that binds to human 5T4 antigen.

Claim 55-56 (canceled)

57. (Previously presented) An isolated nucleic acid molecule having the nucleotide sequence set forth in SEQ ID No 5.

Claim 58-60 (canceled)

61. (Previously presented) The nucleotide sequence according to claim 54 wherein the nucleotide sequence is operably linked to a promoter.

62. (Canceled)

63. (Canceled) An isolated construct, vector, plasmid, or host cell comprising the nucleotide sequence according to claim 54.

PATENT

64. (Canceled)

65. (Canceled) An isolated construct, vector, plasmid, or host cell comprising the nucleotide sequence according to claim 61.

66. (Currently amended) A process for preparing an ScFv antibody (ScFv Ab), said process comprising expressing the nucleic acid molecule of claim 54 ~~and optionally isolating and/or purifying the ScFv Ab.~~

Claim 67 (canceled)

68. (Previously presented) The process for preparing an ScFv antibody (ScFv Ab) according to claim 66, wherein the ScFv Ab has a sequence as set forth in SEQ ID No 1.

Claim 69-95 (canceled)

96. (New) An isolated construct, vector, or plasmid comprising the nucleotide sequence according to claim 54.

97. (New) A host cell comprising the nucleotide sequence according to claim 54.

98. (New) An isolated construct, vector, or plasmid comprising the nucleotide sequence according to claim 61.

99. (New) A host cell comprising the nucleotide sequence according to claim 61.

100. (New) The process of claim 66, further comprising isolating and/or purifying the ScFv Ab.

101. (New) The process of claim 68, further comprising isolating and/or purifying the ScFv Ab.
